Infrared heat lamp shade - Large

Adhering to the core values of Xihui Group "water security" and "energy saving", ChenYan specialized in designing and producing rationalized, economized and effective infrared heating lamp to promote the productivity of livestock farm.

Product Details:

Waterproof grade: IP67	304 stainless steel chain Not easy to rust	Three-way switch Temperature adjustable
Press and rotate Easy to install and well fixed		Patent efficient radiator Ensure maximum heat bulb life
Ceramic lamp holder	Silver plated central contact Ensure good contact with bulb	304 stainless steel mesh cover Not easy to rust

Differences between our heat lamp shade and other products:

-  The plastic lamp head has poor heat dissipation
Not resistant to high temperature, which results in short service life
What's more? It affects the service life of the lamp.

When lamp focus is not thick enough
Very easy to cause damage

- Mesh protective cover made by general manufacturers,
Easy to rust, affecting service life

Shade plug, can be customized
